

MARVIN KIKI

Software Developer

ABOUT ME

I am a recent high-honour graduate from Epoka University with a degree in Computer Engineering, passionate about software development and committed to growing my expertise in this field.

Currently, I am very close to the completion of a Java Full-Stack Development bootcamp at Coding Dojo. As part of the program, I am actively working on two projects that showcase my ability to develop engaging, user-friendly interfaces, as well as functional backend applications.

I am a highly motivated individual and an exceptionally fast and intuitive learner, eager to expand my knowledge and continuously improve my skills, and I believe that my skills make me a suitable match for this internship opportunity.

EXPERIENCE

Java Fullstack Trainee

Oct 2024 - Ongoing

Betaplan, CodingDojo

Building full stack, responsive Java applications using html , css (vanilla + Bootstrap) and javascript for the front end, as well as Spring Boot (MVC) for the backend. I achieved a perfect score of 10/10 in my belt exam, earning a Black Belt. As part of the exam, I built a full-stack Java application in under 5 hours and successfully deployed it to AWS.

SKILLS

- Great knowledge of Java programming language and Object Oriented Programming (OOP)
- Backend Web Development (Java Spring MVC, basic knowledge of REST)
- Frontend Web Development (HTML5, CSS3, Bootstrap, Javascript)
- Relational Databases (SQL)
- Software documentation
- Git/Github
- AWS deployment on EC2 instances
- Analytical skills, problem solving and effective communication in a team environment
