

MARVIN KIKA

Software Developer

ABOUT ME

I am a recent high-honour graduate from Epoka University with a degree in Computer Engineering, passionate about software development and committed to growing my expertise in this field.

Currently, I am nearing the completion of a Java Full-Stack Development bootcamp at Coding Dojo. As part of the program, I am actively working on two projects that showcase my ability to design and develop engaging, user-friendly interfaces, as well as functional backend applications.

While I may not yet be familiar with every cutting-edge framework and technology, I am a highly motivated individual and an exceptionally fast and intuitive learner, eager to expand my knowledge and continuously improve my skills.

EDUCATION

Epoka University

BSc. in Computer Engineering

GPA: 3.92/4.00

2021 - 2024

LANGUAGES

Albanian - Native Language

English - Full working proficiency

German - Elementary proficiency

EXPERIENCE

Java Fullstack Trainee

Oct 2024 - Ongoing

Betaplan, CodingDojo

- Building full stack, responsive Java applications using html , css (vanilla + Bootstrap) and javascript for the front end, as well as Spring Boot (MVC) for the backend.
- I achieved a perfect score of 10/10 in my belt exam, earning a Black Belt. As part of the exam, I built a full-stack Java application in under 5 hours and successfully deployed it to AWS.

SKILLS

- Backend Development (Java Spring MVC and REST)
- Frontend Development (HTML, CSS, Bootstrap, Javascript)
- Relational Databases (SQL)
- Software documentation
- Git/Github
- Object Oriented Programming (OOP)
- Basic knowledge of Data Mining, Machine Learning, Deep Learning using Python
- C Programming Language
- Analytical skills, problem solving and effective communication in a team environment
